

FLORIDA STATE UNIVERSITY

The FSU Office of Research and the FSU Research Foundation are pleased to recognize the following Principal Investigators and their research groups for having a patent that issued during the 2005 Fiscal Year.

U.S. ISSUED PATENTS

Mark Bird (National High Magnetic Field Laboratory)

- *Superconducting Levitation Magnet*
 - U.S. Patent No. 6,850,137 Issued 2/1/2005

Andrey Gavrilin (National High Magnetic Field Laboratory)

- *Transverse Field Bitter-Type Magnet*
 - U.S. Patent No. 6,876,288 Issued 4/5/2005

Yehia Eyssa (National High Magnetic Field Laboratory)

- *Apparatus and Method for Controlling Movement of an Object Through a Medium Using a Magnetic Field*
 - U.S. Patent No. 6,842,324 Issued 1/11/2005

Robert Holton

- 11 U.S. Patent for Taxol Analog Research
 - U.S. Patent Nos.
 - 6,762,309 Issued 7/13/2004
 - 6,780,879 Issued 8/24/2004
 - 6,794,523 Issued 9/21/2004
 - 6,797,833 Issued 9/28/2004
 - 6,861,446 Issued 3/1/2005
 - 6,861,537 Issued 3/1/2005
 - 6,872,837 Issued 3/29/2005
 - 6,872,842 Issued 3/29/2005
 - 6,878,833 Issued 4/12/2005
 - 6,878,834 Issued 4/12/2005
 - 6,906,088 Issued 6/14/2005

Teng Ma (Chemical Engineering)

- *Modular Cell Culture Bioreactor and Associated Methods*
 - U.S. Patent No. 6,875,605 Issued 4/5/2005

Kenneth Roux (Biological Sciences)

- *Purified Linear Polypeptide Epitope From Cashew Nuts, Nucleic Acids Encoding Therefor, And Associated Methods*
 - U.S. Patent No. 6,884,877 Issued 4/26/2005

Joseph Schlenoff (Chemistry and Biochemistry)

- *Apparatus for Capillary Electrophoresis and Associated Methods*
 - U.S. Patent No. 6,841,054 Issued 1/11/2005

Chiang Shih (Mechanical Engineering)

- *Use of Distributed Supersonic Microjets*
 - U.S. Patent No. 6,837,456 Issued 1/4/2005

The Florida State University Research Foundation rewards every research group for each patent that issues in the United States with a \$500 award, split between the inventors.
