# One model fits all?
A cross-national analysis of political discussions

RQ1: Will political discussions differ between all targeted countries?
RQ2: Will disagreement play a stronger role in France & Netherlands?
RQ2b: Will agreement be more predominant in Great Britain?
RQ3: Will discussions equally predict knowledge in all 3countries?
RQ4: Will discussions equally predict participation in all 3 countries?

National Representative Surveys

Media Systems - Political Discussion – Political Efficacy - Political Knowledge – Structural Knowledge - Political Participation – Political Interest – Media Attention
