SPONSOR SALARY LIMITATIONS (based on the U.S. Office of Personnel Management (OPM) Executive and Senior Level Employee Tables for 2018)						
NIH, OJP, NIFA, PCORI: The following annual salary limits (exclusive of fringe benefits and F&A) apply for an individual's salary charged to projects: HHS NIH: \$189,600; DOJ OJP: \$208,560; USDA NIFA: \$164,200; PCORI: \$200,000.						
NIH Graduate Student: The maximum amount awarded by the NIH for the support of a graduate student on a research grant or a cooperative agreement is tied to the 'zero level' National Research Service Award (NRSA) stipend in effect at the time the grant award is issued. The amount provided for compensation includes salary or wages, fringe benefits, and tuition remission. The schedule for NRSA stipends can be found at http://grants.nih.gov/training/nrsa.htm (see <i>Kirschstein-NRSA Stipend Levels</i> near the bottom of the NRSA web page).						
NSF Senior Personnel: As a general policy, NSF limits salary compensation for senior project personnel to no more than two months of their regular salary in any one year (Summer through Spring semesters). This limit includes salary compensation received from <u>all</u> NSF-funded grants.						
NASA: In certain research announcements, NASA may limit the amount of direct salary for an investigator on a grant to Executive Level II of the Federal Executive Pay scale. The Executive Level II salary is \$189,600 as of January 2018.						
ESCALATION FACTORS FOR PROPOSAL BUDGETS (added 09/04/15)						
Sponsored Research Administration encourages investigators to include a reasonable increase in <i>all</i> budget categories to account for inflation in subsequent budget years. Typical increases for salaries and fringe benefits are 1-3% per year. The section on Graduate Tuition Waivers (bottom of Page 2) suggests a 1% escalation factor. Escalation rates may be limited by the sponsor. Consult the sponsor's guidelines or ask the appropriate SRA administrator what rate is generally accepted by a particular sponsor.						
FRINGE BENEFITS - Effective July 1, 2017 (updated 07/25/17)						
The following information regarding Fringe Benefits Rates is for proposal budget development purposes: Fringe benefits and insurance rates should be clearly stated in every proposal's budget explanation (a.k.a. narrative, justification), and the accuracy of those fringe benefit and insurance figures is the responsibility of the PI. The PI should include sufficient funds in the proposed budget to ensure that fringe benefits associated with sponsor-paid salaries are sufficient. The following rates should be used in calculating fringe benefits on proposals. See insurance rates in the next section for additional costs. Rates obtained from https://www.rol.frs.state.fl.us/forms/ir17-197_rates_only.pdf .						
<ul style="list-style-type: none"> • The cost of health and/or life insurance should be added to the fringe benefit cost, if applicable to the employee. • OPS appointments: If the person being appointed to an OPS position also has a regular job at FSU, fringe and health must be budgeted at the same rate as the regular job. • Terminal Leave applies only to leave-earning employees.

SBIR (Small Business Innovation Research) Phase 1			25% MTDC	
STTR (Small Business Technology Transfer) Phase 1			25% MTDC	
For NSF – refer to funding solicitation regarding indirect costs				

Definitions:

BASE: MTDC (Modified Total Direct Costs) consists of all direct salaries and wages, applicable fringe benefits, materials, supplies, services, travel and up to the first \$25,000 of each subgrant or subcontract (regardless of the period of performance covered by the subgrant or subcontract). Modified total direct costs shall exclude equipment costing \$5,000 or more, capital expenditures, charges for patient care, student tuition remission, rental costs of off-site facilities, scholarships, fellowships and participant support costs as well as the portion of each subgrant and subcontract in excess of \$25,000.

TDC (Total Direct Costs) excludes student tuition remission only. If an agreement is funded with federal flow through funds, the total F&A recovered cannot exceed what would have been recovered had the University's negotiated rate been applied.

Off-Campus Rate: For all activities performed in facilities not owned by FSU and to which rent is directly allocated to the project(s), the off-campus rate will apply. If more than 50% of a project is performed off campus, the off-campus rate will apply to the entire project.

Clarification on application of F&A on Stipends: Stipends paid to FSU students should be excluded from F&A as they are considered scholarship/fellowship costs. Stipends paid to non-FSU students are subject to F&A. A stipend is not considered salary.

FSU's **POLICY FOR INDIRECT COST RECOVERY** may be viewed at <http://www.research.fsu.edu/contractsgrants/recoverycost.html>.

PROPOSAL TRANSMITTAL FORM

A Proposal Transmittal Form should be used to obtain approval signatures and to assist in orderly routing of proposals, if the proposal will not be approved via OMNI Proposal Approval Workflow. This form is an internal document and is not submitted to the sponsor. The Proposal Transmittal Form and Instructions are available from the Sponsored Research Administration web site at <http://www.research.fsu.edu/research-offices/sra/forms/>.

Contacts for compliance and facility use are shown below. The PI is encouraged to contact these offices for guidance in proposal preparation if the proposed project will include these types of activities. Compliance and facility use approvals are no longer required prior to submission of the proposal. However, this does not relieve the PI from the requirement to obtain approvals prior to any award resulting from the proposal. Some sponsors may require submission of documentation of institutional review and approval prior to an award.
