Below are the criteria each member of the CRC Small Grant Program (SGP) Review Committee will use to assist them in (a) critiquing a proposal, (b) providing useful feedback to the PI, and (c) determining an overall score for the proposal.

**Keep in mind that each section of the proposal text should be written in clear, concise language so that reviewers from any discipline will be able to understand what is being stated.**

- **Project/Issue and Goals:**
  - Is the project/issue the project will address important/significant in the PI's area of research?
  - Are the goals/objectives of the project clear?
  - Is the proposal designed to allow for the completion of a project for which other funding is not available, and is clearly not supported by any other resources?

- **Research Methods/Creative Activities:**
  - Are the research methods and/or creative activities appropriate in light of the goals/objectives of the project?

- **Significance of Intended Outcomes:**
  - Are the intended project outcomes of potential importance/significance?

- **Anticipated External Funding:**
  - Is it likely that the proposed research or creative activity will enhance the prospects for future external funding?
  - Does the plan for seeking external funding seem reasonable?
  
  (Note: As compared to several of the other CRC grant programs, there will be less emphasis in the Small Grant proposal review process on the eventual acquisition of external funding. However, this does not totally remove the need for external funding consideration.)

- **Schedule of Project Activities:**
  - Does the schedule of project activities seem realistic?
  - Does the project schedule reflect no anticipated continuing commitment of funds, but rather the completion of a single, distinct activity?

- **Budget:**
  - In reference to the Project Goals/Objectives and the Proposed Research Methods/Creative Activities, does the project budget seem reasonable?
  - Does the budget fund a future completion objective, and not reimburse activity that has already occurred?

- **Department/College Support:**
  - If the PI's department and/or college will be providing any special or non-routine support for the project, is it likely that such support will contribute to the success of the project?

- **Professional Obligations:**
  - Are the PI's other professional obligations during the award period likely to interfere with his/her ability to successfully complete the project?
Scoring Scale

Reviewers should provide a numeric score and comments for each proposal.
