

## Selected ORD Programs

### Collaborative Collision

Each Fall and Spring semester, Collaborative Collision builds connections around shared interest in complex challenges at *Connector*, guides these connections as they become collaborations during our 10-week *Incubator*, and funds innovative new teams through *Accelerator*.

### Council on Research and Creativity (CRC) Internal Funding Programs

In addition to being an advisory committee for the Vice President for Research, the CRC sponsors six internal grant programs and four honorary programs for faculty funding.

### NSF CAREER Program

From March to July, ORD's program walks early career faculty through the NSF CAREER application process, and provides tools and resources along the way, including mock reviews for draft proposals.

### Research Mentor Academy

ORD provides evidence-based, interactive training towards effective mentoring relationships for mentors and their mentees at all levels of their research careers, promoting a culture of research mentoring excellence at FSU.

## Limited Submission Program Administration

For some funding opportunities, the sponsor restricts the number of applications or proposals an institution can submit. ORD facilitates the screening of pre-proposals or nominations from FSU faculty.

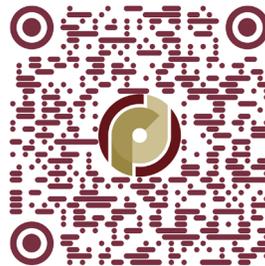

## About ORD

The **Office of Research Development**, a component of the FSU Office of the Vice President for Research, serves as a resource for faculty seeking grant support.

## Our Mission

The **Office of Research Development's** mission is to strengthen research competitiveness at FSU. To this end, we are dedicated to **equipping** researchers for success, **building** connections, **investing** in promising new ideas and researchers, and **promoting** a culture that helps research to flourish.

FLORIDA STATE UNIVERSITY

# Strengthening Your **Research Competitiveness**

## **ORD Services & Resources**

- One-on-one consultations
- Identification of potential collaborators, reviewers and peer mentors
- Funding announcements and online search tools
- A library of grant writing workbooks
- Proposal narrative editing support
- Mock review panels
- Additional Online Resources
  - Recordings of grant-related workshops
  - Grant writing tools
  - Database of successful proposals
  - Community partnership opportunities
  - Monthly awards reports
  - Institutional boilerplate language

### **Professional Development Workshops and Resources**

Our live and recorded workshops cover a variety of funding opportunities, grant-writing best practices, and research know-how. We maintain a robust website with resources, tools, and proposal examples.

### **Personalized Consulting and Strategic Planning**

Our team meets with faculty to discuss strategies and resources to help them achieve their research goals. We also develop individualized roadmaps and longer-term plans for new faculty, in pursuit of independent funding.

### **Management and Support for Proposal Development**

Our proposal management and development approach leverages our expertise in strategies to increase efficiency and reduce the burden on principal investigators and research teams.

### **Internal Funding Opportunities**

ORD manages various internal funding competitions, which support a variety of research-related expenses to help researchers launch new projects, maintain important work, and encourage collaborations.

### **Building and Accelerating New Collaborations**

Our team facilitates collaborations by connecting faculty with complementary interests, identifying expertise and resources to enhance research programs, and providing opportunities to break down disciplinary and organizational silos.
