A. OHSP Administrative (Pre-IRB) Review
For an FSU study that may involve TMH, review will in part consider:
- use or disclosure of TMH patient information;
- TMH clinicians or staff as study team members;
- study activities (e.g., interventions or interactions such as procedures, lab tests, interviews);
- recruitment at any TMH location;
- any other activity conducted at a TMH site, office or location;
- full description in the protocol of all TMH-related activities and matters; and,
- PI’s documentation of contact or review by TMH.
